

iKINETIC
INNOVATE. PLAN. DELIVER.

ABOUT US

Where we come from & How we operate

- Established in 2000 and our resources have operated both domestically and internationally.
- Our background is in Civil, Structural, Mechanical Engineering , Project Engineering and Project Management. RPEQ Structural & Mechanical & Management
- We operate in the heavy industrial sector on Projects such as Coal Handling and Preparation Plants, Refineries, Water Treatment Plants, Desal, Hydro power plants, Ports etc...
- We are uniquely competent operating on complex multidiscipline Process orientated Projects and our proof is in how we have saved our clients tens of millions of dollars on the Projects that we have been engaged on.
- One of our competitive advantages is that we are skilled across multiple Project lifecycle phases from Prefeasibility through to Operational Handover.
- We typically work in very small teams, are located out of client offices and have significantly faster response times and lower overheads.

Experienced staff, lower overheads and faster response

Since 2000 we have been providing clients with definitive advice and support with their Project needs. We offer an alternative to the traditional “Consultant” type of service and our enthusiasm and drive can help generate the required motivation your team needs to deliver. Lower overheads and faster response times means we can offer more value and higher performance.

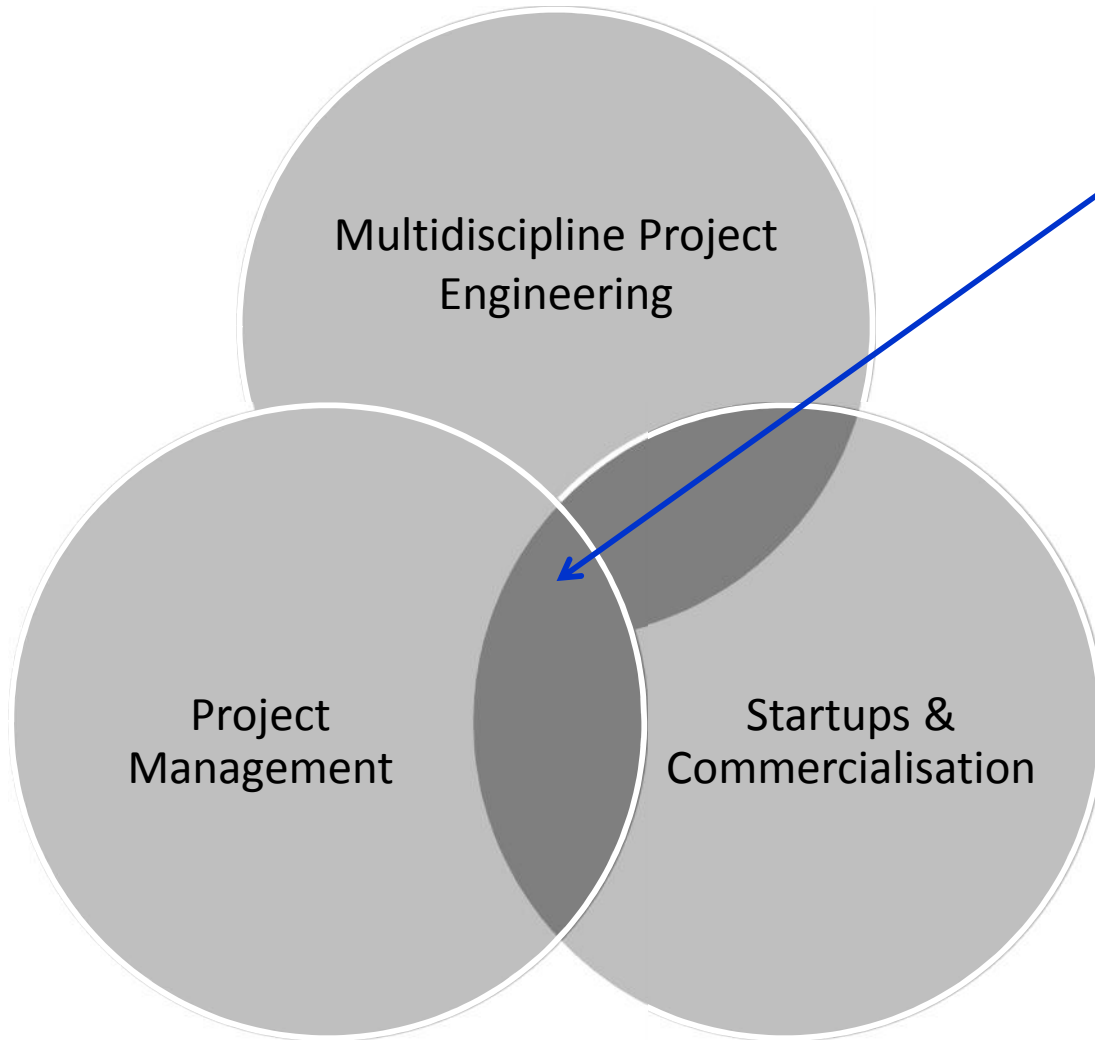

If it's being your client representatives, developing deliverables for your Project or leading your team we'd like to be the ones you turn to first. We specialise in complex multidiscipline projects and concentrate on :

- Building Information Modelling (BIM) Consulting
- Study Deliverable Reviews and Benchmarking
- Client Team Management
- Project Definition & Head Contract Scoping
- Contract, Procurement and Project Execution Strategies
- Engineering & Procurement Management
- Design Management, Optioneering, Modularisation & Constructability Reviews, Value Engineering
- Logistics
- Tender & Bid Preparation & Procurement Pricing. Generation of Bid quantities and MTO's.
- Conceptual 3D Modelling, Site Plan Development, Design Engineering & Quantities Definition
- Estimating & Scheduling

Our Experience

Coal & Minerals	Wiggins Island Expansion Feaso
	Abbot Point Coal Terminal Tender
	Lake Lindsay CHPP Project
	Wilpinjong CHPP Project
	Saraji CHPP Project
	Bengalla CHPP Project
	Duralie Project Feaso
	Blair Athol Project Feaso
Water	Tarong Mine Void Tender
	Dartbrook CHPP Project
	Victorian Desal Project
	Kenya Water Treatment Tender
Energy	Adelaide Desal Tender
	Bundamba Water Treatment Plant
Petrochem	CCS Flagship Program
	BC Hydro EHR Project
	Dyno Nobel Project
	Shell Bonga FPSO Project
	BP Clean Fuels Project

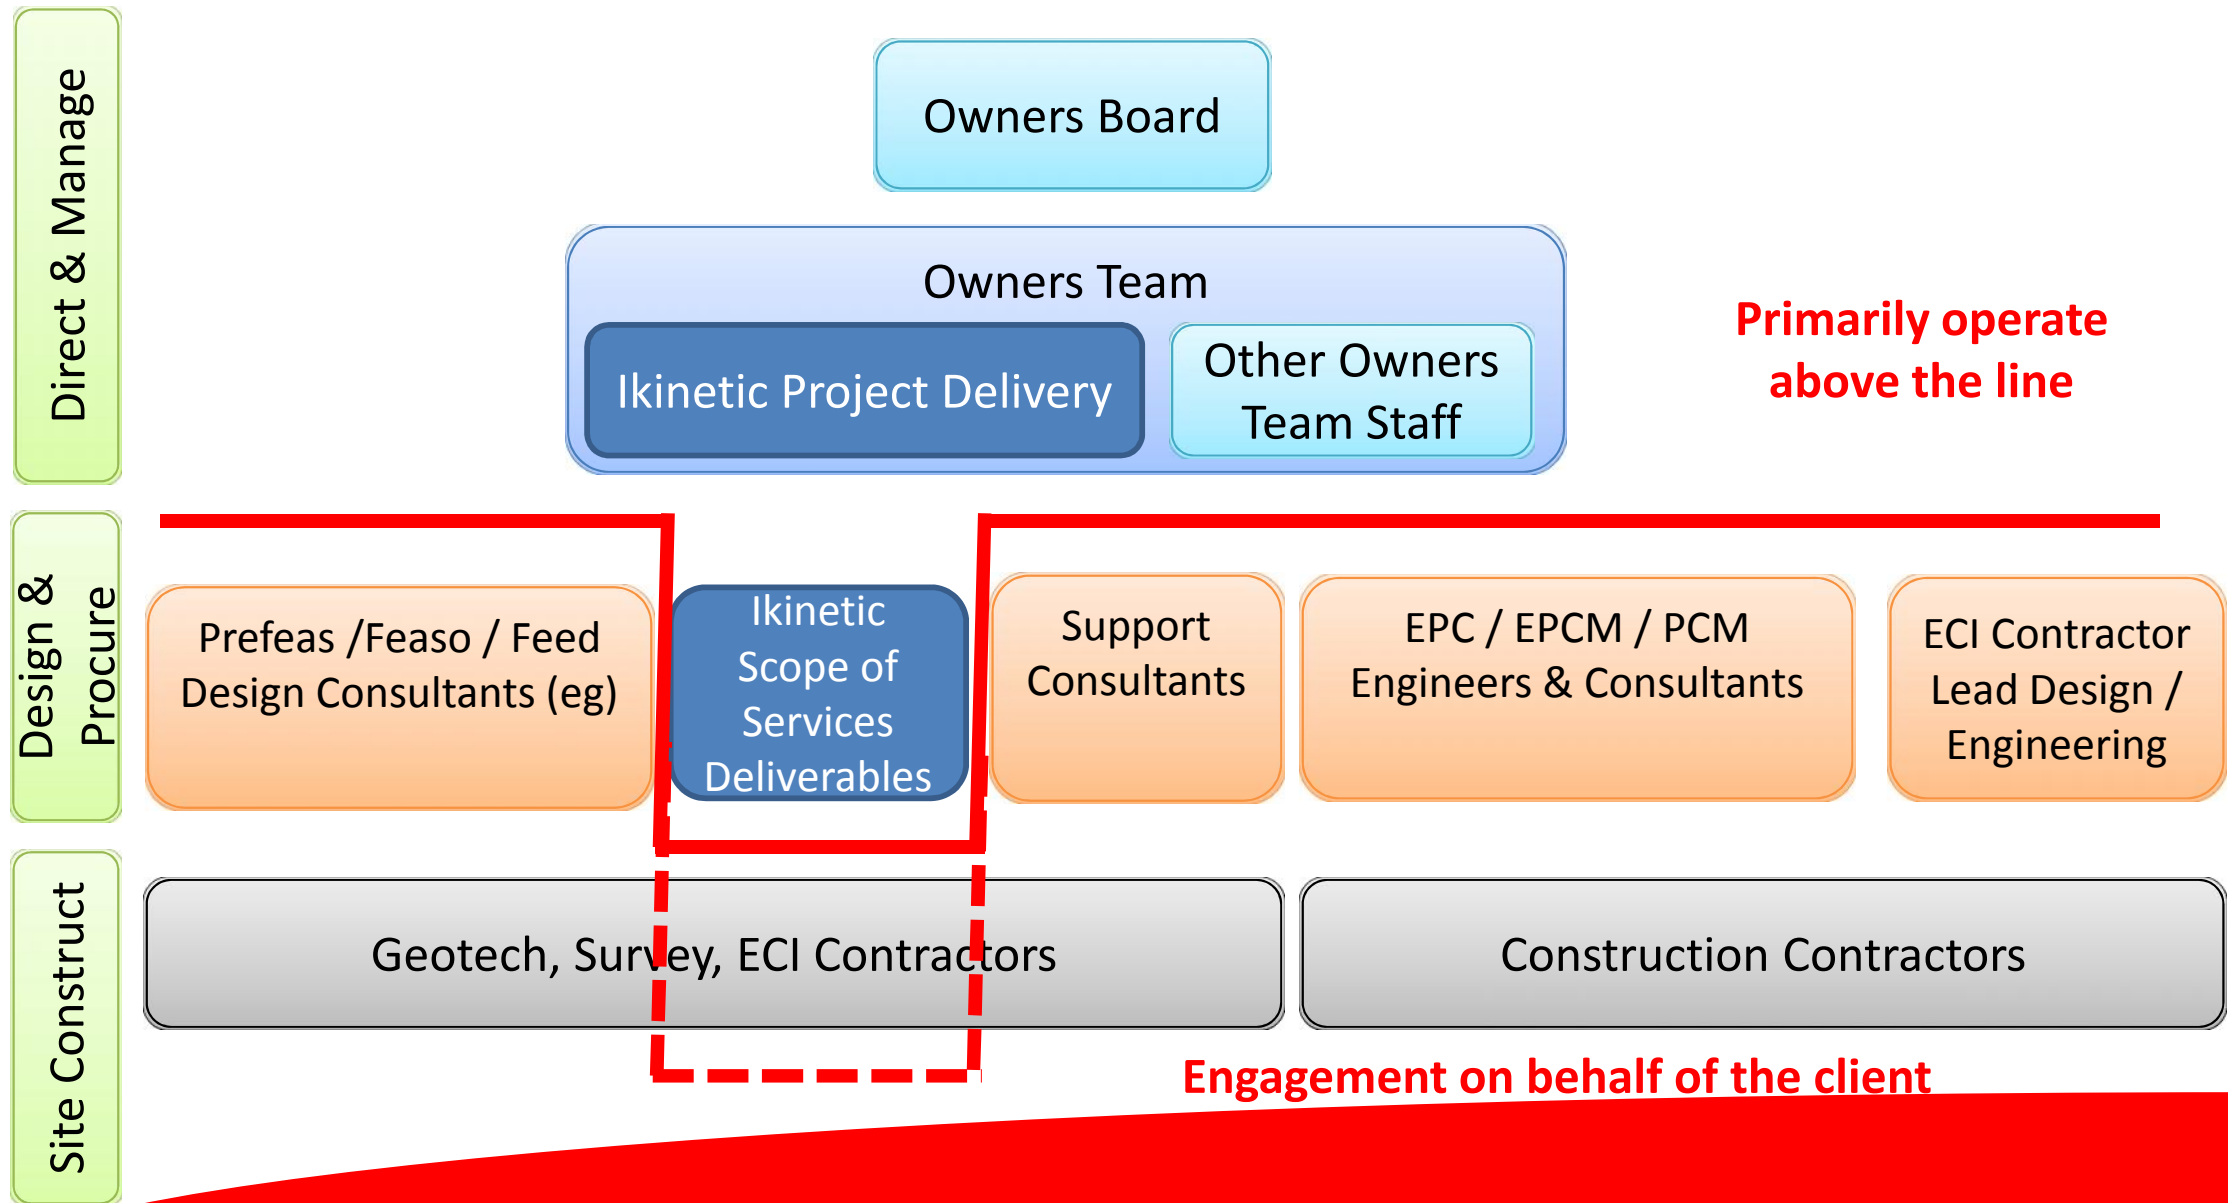

Our Business Space
